

Dear General Enemark

I am a American GI and a Non Vet. I made my rank in the bush, and took three when I got back. Every day I see in the papers about My Lay and war crimes, and about how lots of dudes rap to the papers about how they know about some war crimes but then never will say any names or places. Well, I don't know any details about nothing big like My Lay, but I have been trying for a year now to tell somebody about a bunch of little things that add up to bad as My Lay or worse.

The thing that hassles me most about this is it is always the EM or the LT gets busted for murder when the high officer that caused the war crime only gets charged with cover up not checking it out to see if the thing really happened. Busted one rank? Man, that's a real get over sentence when the EM or young LT is up for murder.

So I'm gonna try one last time to tell the Army and see if anybody gives a "shit." I wrote to General Talbot at Fort
